Newborn Shoot Guidelines

Ideal Timing:

Best time for newborn shoots is when the baby is 5-15 days old. Babies sleep longer during this period, making it easier to pose them.

Booking:

Book your session during pregnancy with a tentative date. We will confirm the shoot once the baby arrives.

Studio Amenities:

Our studio has a change room, feed room, and washroom available.

Day of Shoot Instructions:

- **Before Arrival:** Keep the baby awake and don't feed them until you arrive.
- **Essentials:** Bring extra diapers, wipes, a change of clothes, snacks for parents.
- **Pacifier:** Bring a pacifier even if you don't normally use it. *It's a must—don't forget!*
- **Outfit:** Dress the baby in something easy to remove, no oil, kajal, or threads on shoot day.
- **Outfits for Parents/Siblings:** Neutral, solid-colored outfits (preferably whites). No patterns. Discuss beforehand.

Newborn Shoot Guidelines

- **Flexibility:** Be prepared for the session to run longer if needed.
- **No Extra People:** Only parents and siblings allowed in the studio during the shoot.

Terms & Conditions

- **Cancellation:** If the client is delayed by more than an hour, the shoot will be cancelled, and the advance will not be refunded. The shoot will be rescheduled based on the next available date.
